## Skills

## Professional Summary

I am a fullstack with 2+ years of experience designing and building responsive, user-focused web applications across fintech, e-commerce, and social platforms. Proficient in React.js, JavaScript, Typescript, Tailwind CSS, Django, and Python, with strong expertise in API integration, performance optimisation, and secure UI development. Adept at collaborating in Agile environments to deliver scalable, high-quality digital solutions. Passionate about leveraging technology to solve real-world problems, with growing interests in cybersecurity and data science.

## Employment History

### Frontend Developer, Platnova Technologies Limited, Lagos

08/2025 - Present

- Build and maintain responsive, user-friendly interfaces with React.js and Tailwind CSS.
- Integrate APIs to display real-time financial data and improve platform interactivity.
- Develop secure, reusable UI components, ensuring accessibility and performance.
- Collaborate in Agile teams, contributing to timely delivery of scalable financial solutions.

### Frontend Freelance, Remote

12/2024 - 07/2025

- Designed and implemented a content-sharing platform with Django and React, including custom user models and preference-based content feeds.
- Built a Student media sharing platform
- Developed a productivity desktop app using Python (PyQt5) to manage focus sessions by blocking selected applications.
- Created multiple portfolio and landing page websites, optimised for responsiveness and SEO.

### Frontend Intern, HNG Internship, Remote

07/2024 - 09/2024

- Contributed to frontend features, collaborating with remote teams using Agile methodology.
- Implemented responsive UI components and integrated APIs into live projects.
- Participated in debugging, code reviews, and knowledge-sharing sessions with senior developers.

## Education

### CyberSecurity, Obafemi Awolowo University, Osun

10/2024 - Present
